Estimados Señores,

Nosotros, NTF Filter B.V., fabricantes y propietarios de los todos los productos NTF, certificamos que nuestros filtros durante el proceso de bypass han sido probados mediante el Multipass test de acuerdo al ISO 16899; 1999 realizado por el laboratorio Parker Arlon, Arnhem, The Netherlands, tuvieron el siguiente resultado:

"Filtración de hasta 0.5 micras y capaz de eliminar hasta el 99,9% de las partículas más pequeñas en el fluido".

Atentamente,

A handwritten signature in blue ink, consisting of several fluid, overlapping strokes that form a cursive-like shape.

C.G.M. Hendriks
CEO
NTF Filter B.V.

Dear Sirs,

We, NTF Filter B.V., manufacturer and owner of all NTF products, certify that our filters during bypass process with Multipass test according to ISO 16899; 1999 by Parker Arlon, Arnhem, The Netherlands have the following results:

Filter up to 0.5 micron and are able to remove as far as 99,9% of the very smallest particles in the fluid.

Yours sincerely,

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.

C.G.M. Hendriks
CEO
NTF Filter B.V.
